

AUTOMATED CASE & BAG LOADER

PRODUCT HANDLING SOLUTION

Robust and advanced system designed to count and collate singulated products

CASE LOADER CONFIGURATION

FEATURES AND BENEFITS

- Gentle product handling
- Automated product counting eliminates the need for costly combination scales
- Improves efficiencies by reducing labor and product miscounts
- Easy integration with new or existing case erector or vertical baggers
- Compact design to preserve valuable floor space
- Aligns long products such as baguettes so they drop straight into case
- Speeds up to 300 ppm dependent on product size
- Easy-to-use operator interface
- Stainless steel construction to meet the highest sanitary standards

The KLEENLine® Automated Case and Bag Loader is another addition to the KLEENLine Family of wash down equipment solutions for food manufacturing environments. KLEENLine's innovative automated case and bagger loading system is designed to handle fragile baked goods while offering performance enhancement to your current operations. The Automated Case and Bag loader is the ideal application for fresh, frozen, or partially-baked bread products such as rolls, loaves, baguettes, dough balls, as well as, frozen and pouched protein products.

ADDITIONAL FEATURES AND BENEFITS

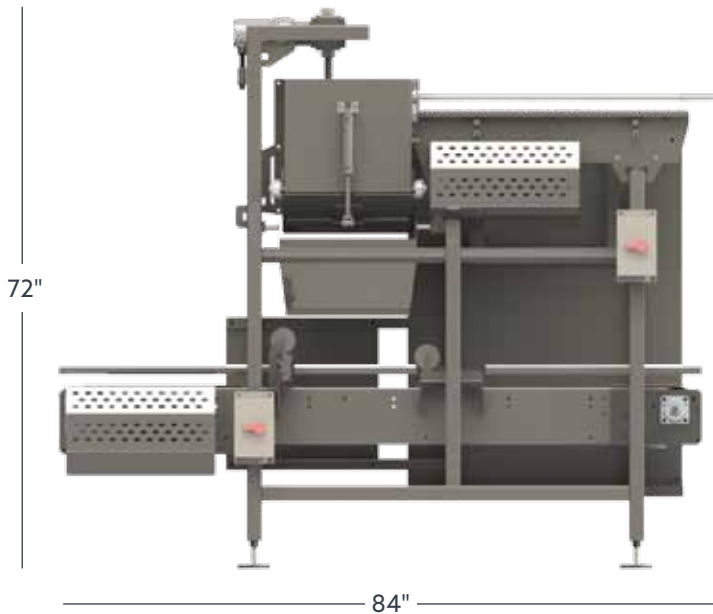

- All stainless steel construction
- Wash down capable
- Servo-actuated product divert
- Rockwell controls architecture
- Capable of case erector or vertical bagger integration
- Count 12-piece product groups up to 300 pieces per minute depending on product size
